

# Week 6 - PHP & MySQL CRUD Application

## Student List Application

### 1. Home Page (index.php)

### 2. ViewAll Page (read.php)

### 3. AddStudent Page (create.php)

The screenshot shows a web browser window with the URL `localhost/FullStackDevelopment/Workshop6/create.php`. The page has a pink background and a white header bar. The header bar contains the text "Student Records" on the left and three buttons: "Home", "View All", and "Add Student" on the right. The main content area is titled "Student Details Form" in pink. It contains a form with three input fields: "Student Name:", "Email:", and "Course:". Below these fields is a red "Submit" button. At the bottom of the form is a white "Go Back" button.

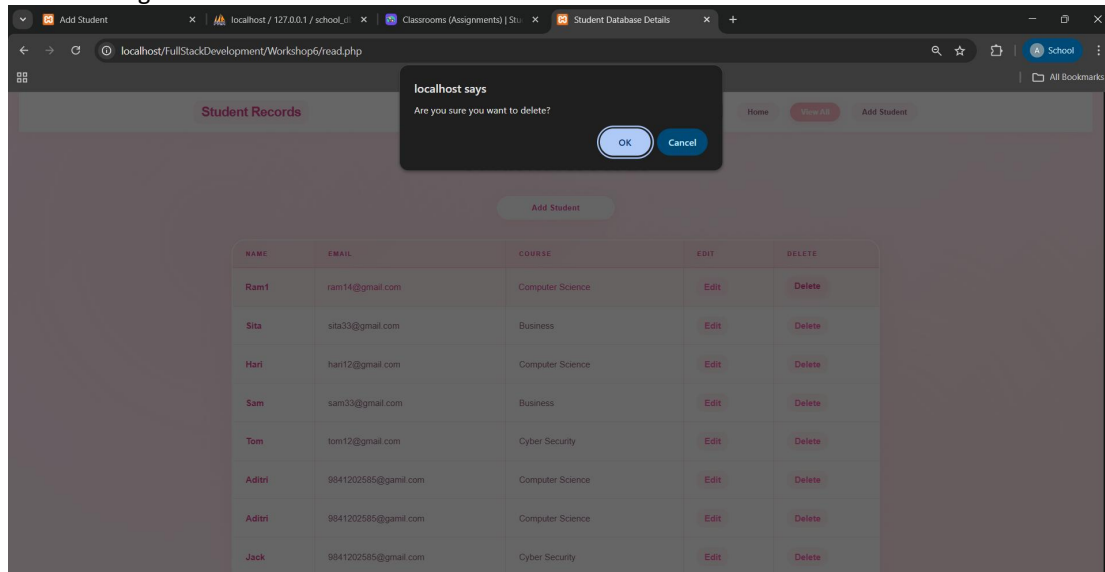

### 4. Edit Page (edit.php)

The screenshot shows a web browser window with the URL `localhost/FullStackDevelopment/Workshop6/edit.php?id=1`. The page has a pink background and a white header bar. The header bar contains the text "Student Records" on the left and three buttons: "Home", "View All", and "Add Student" on the right. The main content area is titled "Edit Student Details" in pink. It contains a form with three input fields: "Student Name:", "Email:", and "Course:". The fields are pre-filled with "Ram1", "ram12@gmail.com", and "Computer Science" respectively. Below these fields is a red "Update" button. At the bottom of the form is a white "Go Back" button.

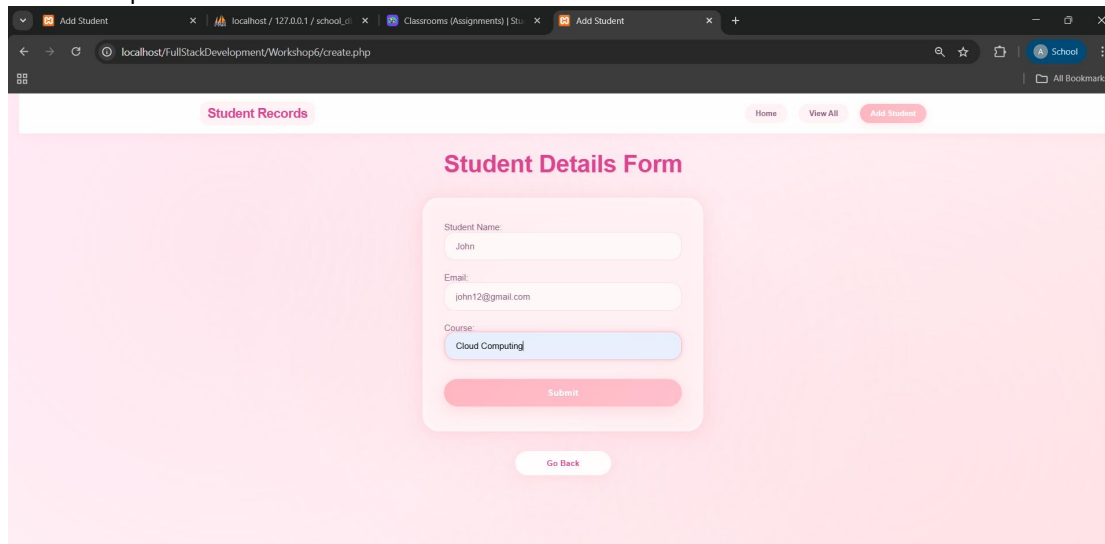

### 5. Update Page

The screenshot shows a web browser window with the URL `localhost/FullStackDevelopment/Workshop6/edit.php?id=1`. The page has a pink background and a white header bar. The header bar contains the text "Student Records" on the left and three buttons: "Home", "View All", and "Add Student" on the right. The main content area is titled "Edit Student Details" in pink. At the top of the main content area is a white box with the text "Student Updated Successfully". Below this is the same form as in the previous screenshot, with the fields pre-filled with "Ram1", "ram14@gmail.com", and "Computer Science". The "Update" button is red, and the "Go Back" button is white.

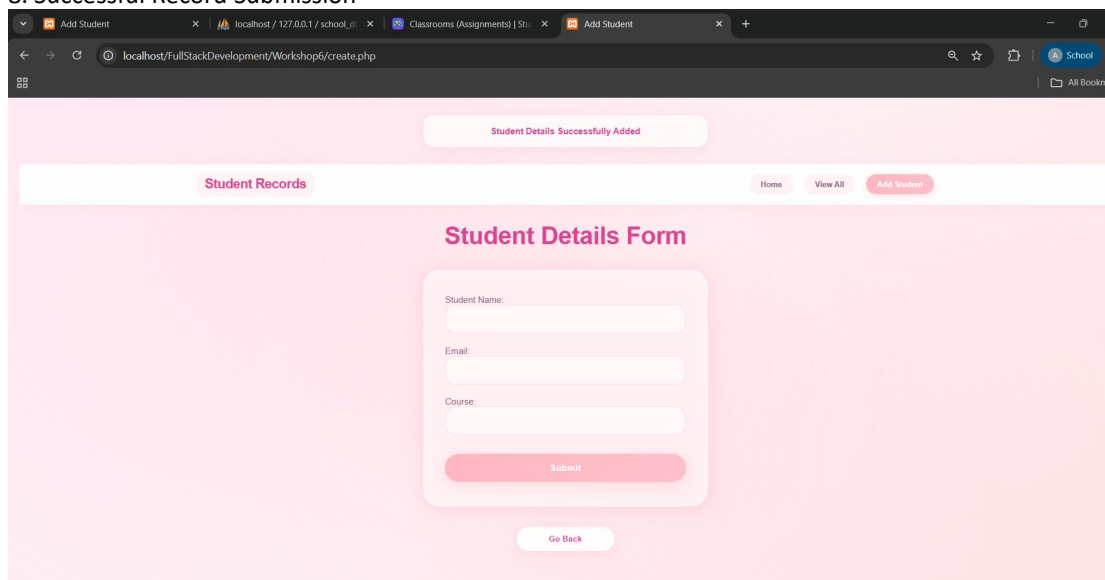

## 6. Delete Page

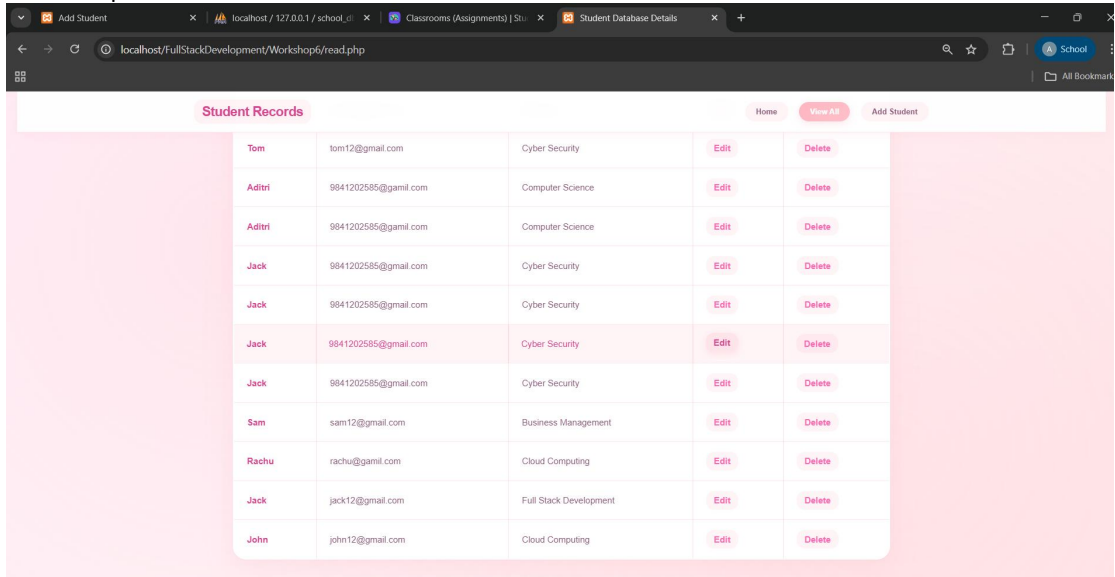

## 7. Create Operation

## 8. Successful Record Submission

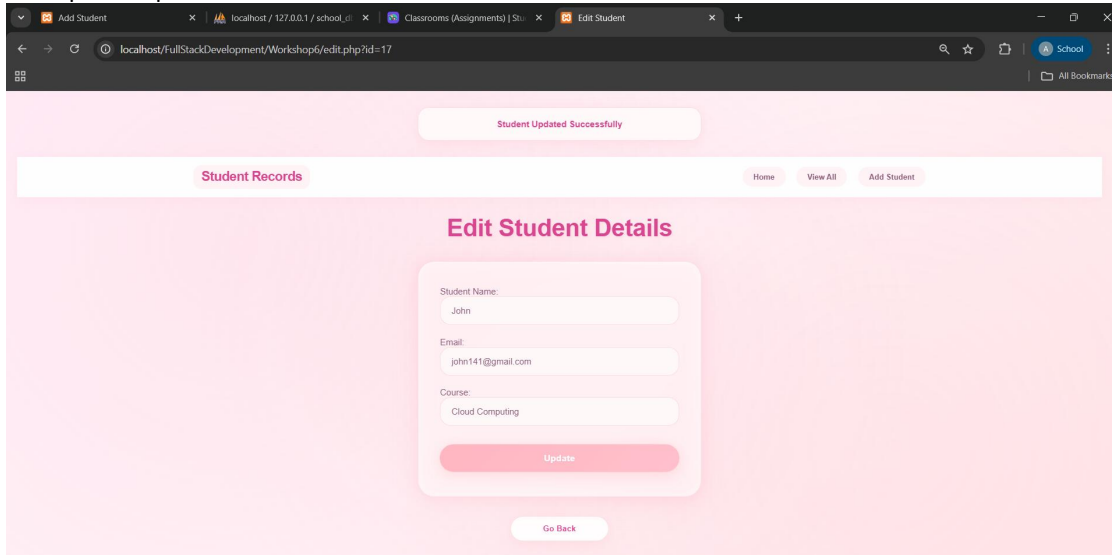

## 9. Read Operation

The screenshot shows a web application interface for managing student records. At the top, there are navigation links: "Home", "View All", and "Add Student". The main content area is titled "Student Records" and contains a table with the following data:

| Name   | Email                | Course                 | Edit | Delete |
|--------|----------------------|------------------------|------|--------|
| Tom    | tom12@gmail.com      | Cyber Security         | Edit | Delete |
| Aditri | 9841202585@gmail.com | Computer Science       | Edit | Delete |
| Aditri | 9841202585@gmail.com | Computer Science       | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Sam    | sam12@gmail.com      | Business Management    | Edit | Delete |
| Rachu  | rachu@gmail.com      | Cloud Computing        | Edit | Delete |
| Jack   | jack12@gmail.com     | Full Stack Development | Edit | Delete |
| John   | john12@gmail.com     | Cloud Computing        | Edit | Delete |

## 10. Update Operation

The screenshot shows a web application interface for editing student details. At the top, there are navigation links: "Home", "View All", and "Add Student". A success message "Student Updated Successfully" is displayed at the top. The main content area is titled "Edit Student Details" and contains a form with the following fields:

Student Name: John

Email: john141@gmail.com

Course: Cloud Computing

Update

Go Back

## 11. Delete Operation

The screenshot shows a web application interface for managing student records. A modal dialog box is displayed in the center, asking for confirmation to delete a record. The background shows a table of student records with columns for Name, Email, Course, Edit, and Delete. The 'Delete' button for the first record (Tom) is highlighted.

localhost says  
Are you sure you want to delete?

OK Cancel

| NAME   | EMAIL                | COURSE                 | EDIT | DELETE |
|--------|----------------------|------------------------|------|--------|
| Tom    | tom12@gmail.com      | Computer Science       | Edit | Delete |
| Aditri | 9841202585@gmail.com | Computer Science       | Edit | Delete |
| Aditri | 9841202585@gmail.com | Computer Science       | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Jack   | 9841202585@gmail.com | Cyber Security         | Edit | Delete |
| Sam    | sam12@gmail.com      | Business Management    | Edit | Delete |
| Rachu  | rachu@gmail.com      | Cloud Computing        | Edit | Delete |
| Jack   | jack12@gmail.com     | Full Stack Development | Edit | Delete |
| John   | john141@gmail.com    | Cloud Computing        | Edit | Delete |

| Aditri | 9841202585@gmail.com | Computer Science | Edit | Delete |

## 12. SQL Query(queries.sql)

The screenshot shows a Sublime Text editor window with a file named 'queries.sql'. The code defines a database 'school\_db' and a table 'students' with columns 'id', 'name', 'email', and 'course'. It also includes an INSERT statement to add several student records.

```
1 CREATE DATABASE school_db;
2
3
4 USE school_db;
5
6 CREATE TABLE students(
7     id INT PRIMARY KEY AUTO_INCREMENT,
8     name VARCHAR(100),
9     email VARCHAR(100),
10    course VARCHAR(100)
11 );
12
13 INSERT INTO students(name,email,course) VALUES
14     ("Ram","ram12@gmail.com","Computer Science"),
15     ("Sita","sita33@gmail.com","Business"),
16     ("Hari","hari12@gmail.com","Computer Science"),
17     ("Sam","sam33@gmail.com","Business"),
18     ("Tom","tom12@gmail.com","Cyber Security");
```

### 13. Database(school\_db)

The screenshot shows the phpMyAdmin web interface. The left sidebar displays the database structure, including 'school\_db' and its table 'students'. The main panel shows the 'students' table with 14 rows. The table structure is as follows:

| id | name   | email                | course                 |
|----|--------|----------------------|------------------------|
| 1  | Ram1   | ram14@gmail.com      | Computer Science       |
| 2  | Sita   | sita33@gmail.com     | Business               |
| 3  | Hari   | hari12@gmail.com     | Computer Science       |
| 4  | Sam    | sam33@gmail.com      | Business               |
| 5  | Tom    | tom12@gmail.com      | Cyber Security         |
| 6  | Aditri | 9841202585@gmail.com | Computer Science       |
| 7  | Aditri | 9841202585@gmail.com | Computer Science       |
| 8  | Jack   | 9841202585@gmail.com | Cyber Security         |
| 9  | Jack   | 9841202585@gmail.com | Cyber Security         |
| 10 | Jack   | 9841202585@gmail.com | Cyber Security         |
| 11 | Jack   | 9841202585@gmail.com | Cyber Security         |
| 12 | Sam    | sam12@gmail.com      | Business Management    |
| 13 | Rachu  | rachu@gmail.com      | Cloud Computing        |
| 14 | Jack   | jack12@gmail.com     | Full Stack Development |
